

# COMMERCIAL SCREENS **with** VISION

## **Security & Vision**

Security without sacrificing architectural building design. The low profile screen frame fits building contours and only has the appearance of a heavy bug screen.

*Before - Unprotected*

*After - Protected*

- Churches / Museums
- Dormitories / Schools / Student Housing
- Municipal Buildings
- Laboratories
- Secure offices

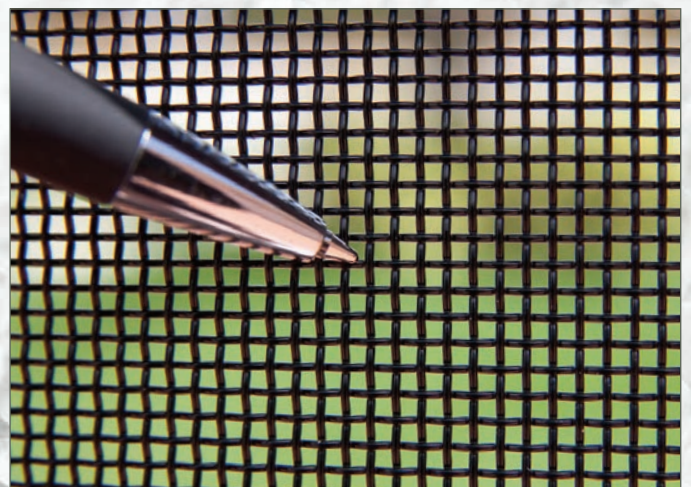

## **View**

QMI security screens enable views toward the greatest degree of light. Customers can see outside during the day and retailers can merchandise safely all night long-just leave the lights on. Screens will repel most rocks, bricks, knives, crowbars, and sling shots.

## **Protection**

Woven high-tensile 304 grade stainless steel wire secures occupants and provides clear exterior vision.

## Safety without Design Compromise

Municipal complexes protected from vandalism without any modifications to the structure or building aesthetics.

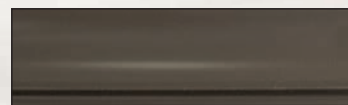

## Screens

Maintains architectural design and aesthetic curves. The subtle stainless steel screen frame is fabricated to integrate with the building design while providing maximum security with minimum visual impact.

## Frame Colors

bronze

white
